

Live Oaks Celebration

August 15 – October 1

We are offering free live oaks for Virginia Beach residents to plant around:

-  Homes
-  Businesses
-  Schools
-  Churches
-  Common areas
-  Parks

To receive a live oak, go to www.friendsofliveoaks.org and complete a request form by October 1. Or pick up a request form at any Virginia Beach Public Library and return it by mail.

The Friends of Live Oaks (FOLO) is a citizen advocacy group formed to plant, protect, preserve, and promote live oak trees in Virginia Beach. We and our neighbors love live oaks because they:

- Are drought-tolerant, disease-resistant, low-maintenance
- Provide beautiful shade and privacy
- Increase property values, reduce air conditioning costs
- Resist salt spray, storm surges, even hurricanes
- Control flooding and storm water runoff
- Are the official tree of the City of Virginia Beach - a symbol of our coast
